

# Heavy Duty High Performance Hydraulic Manipulators

# CLANSMAN DYNAMICS

*C20020 rail bound manipulator with 20 tonnes capacity*

*Gripper with cannon and magnet*

*C620 manipulator with gripper mounted cannon*

*C5010 rail bound manipulator with 5 tons capacity*

*High speed C320 manipulator*

*C20020 gripper up to 3.2 m – The world's largest telemanipulator*

Clansman manipulators operate in some of the toughest manufacturing environments in the world but continue to provide supremely robust high-technology solutions for material handling in forges, foundries, steelworks and even garbage handling for energy conversion. Superior reliability and maximum simplicity means more uptime, lower maintenance costs, and smoother production.

The world's largest range of rail or statically mounted manipulator offer capacities from 100 kg up to 20,000 Kgs.

Clansman Dynamics is an award-winning company working in partnership with our customers to develop a world-leading product. A commitment to continuous improvement, quality and customer service means that our customers include some of the world's best known manufacturers.

Superior Design: Clansman Dynamics has utilised the latest technology to ensure that the manipulators are the most reliable and easiest machines to maintain. The design is continually updated to reflect feedback from our customers and service teams.
